FORCE OF 2,000 JAPANESE ALMOST ANNIHILATED.

Twelve Hundred Killed, Wounded or Captured While Marching from Fusan to Scoul.

SHANGHAL Sept. 14.-If the reports received here from Corea are to be believed there would seem to be no doubt that the Japanse forces operating against the Chinese are likely to be hemmed in. Dispatches received here from Fusan bring additional confirmation of the reports that the whole of southern Corea has risen against the Japanese. It also seems to be confirmed that the Japanese force of two thousand men who attempted to march from Fusan, to Seoul have met with disaster serious enough to compel them to return to the former place with 1,200 of their number missing. From this it judged that serious fighting must have taken place, as it is not believed that the 1,200 missing soldiers will reach Fusan. A force of two thousand fresh troops has arrived at Fusan in order to protect the Japanese settlement at that place against an anticipated attack upon the part of the armed bands of Tonghaks gathering in the neighborhood.

Further details received from Corea say that the Japanese force of two thousand men was sent to attempt to open up a line of communication between Fusan and Seoul. This advance was opposed by the Coreans in force, who eventually compelled the Japanese to return to Fusan with a loss of 1,200 men, as before cabled. The two thousand men sent to reinforce the Japanese are now guarding Serio, which is expected to be attacked by the Tong-

General Liu Yung Fu, the prominent Black Flag chief of Annan, has received orders from the throne to depart as soon as possible for the island of Formosa, where he is to act as assistant imperial high war commissioner. General Liu Hung Fu at the end of August attempted to transport five hundred soldiers from Swatow to Formosa. But, hearing rumors that a Japanese squadron was cruising in the vicinity of Formosa, the captain of the steamer engaged to transport the Chinese troops would not put to sea in spite of the entreaties and threats of the Black Flag general. Nothing daunted, General Liu Hung Fu succeeded in smuggling his men across to the island in small parties in any boats he could obtain possession of, and whenever there was a chance of so doing. In this connection it is reported that the transport steamer referred to was afterwards overhauled by three Japanese cruisers who sent boats of armed men to board her. The Japanese officers demanded the ship's papers, carefully examined them, and then searched the steamer, evidently having received information to the effect that General Liu Hung Fu was likely to be on board of her.

British Attaches Named.

LONDON, Sept. 14.-Capt. Noel W. Du Boulay, staff captain of the Royal Artillery, on duty in China, has been ordered to Corea as the British military attache with the Japanese headquarters staff. Captain Cavendish has been detailed to join the headquarters of the Chinese army in Corea as military attache. A British army surgeon has been detailed to join the headquarters staff of the Chinese army and another one has been sent to join the staff of the Japanese army.

Japs Repulsed at Ping Yang. LONDON, Sept. 14.-A dispatch to the Times from Tien-1sin says that news has reached there from Ping Yang that the Japanese, on the night of Sept. 12 made an attempt to surprise the Chinese camp, but were repulsed with heavy loss. The movements of the Japanese troops were impeded by the standing crops, which also hid the enemy from them.

Bribes Offered British Soldiers. HONG KONG, Sept. 14.-Chinese agents are offering bribes to the soldiers of the British garrison in order to induce them to desert and enter the Chinese service. The commander of the British forces at Hong Kong has issued an order warning the troops against listening to the ad-vances of the Chinese government.

DEVIL WORSHIPERS PUNISHED. Two Executed and Others Sentenced

to Imprisonment. VICTORIA, B. C., Sept. 14.-News comes from Fij hat the trial of the ringleaders anti principal actors in the recent devil worship rebellion of mountain tribes of Fiji has been concluded at Suva, six prisoners captured by the King's troops being arraigned for murder, and, after a most sensation trial, sentenced to death. One of the condemned was a boy of about sixteen. who is said to be responsible for the entire tragedy, he having proclaimed himself devil priest, and urged his fellow-tribesmen to return to the ancient custom of life and superstitious worship. When the troops took the field against the mountainsers is was this boy who declared that the fortifications on the hill top were strong places, and prepared, with scientific skill, to resist charge and meet the volleys of the sharpshooters. In consideration of his youth the executive council subsequently commuted his sentence to ten years' im-prisonment, at the same time remitting the capital penalty in the cases of two others, who will serve in chains for twenty years. The two eldest and flercest of the rebels were executed on the 10th of August. There is still a certain amount of disquiet throughout the islands among the followers of the boy priest, who are only partially satisfied by the commutation of his sentence, and still threaten to make trouble. Many of these have crossed over to the Ellice group, in which government work was initiated some nine months ago.

RELIGIOUS WAR. Ferment Among Mohammedans and

Hindoos in Bombay. FOMBAY, Sept. 14.-The excitement which commenced on Wednesday at midnight at Poonah City, and which led to a riotous fight between Mohammedans and Hindoos, continues. All business is suspended and the streets are patrolled by a squadron of lancers. The Governor of Bombay, Lord Harris, is doing his utmost to reconcile the warring parties. To make the trouble worse, a pamphlet in reaflets as been issued by fourteen Brahmins urging the Hindoos to arm and inaugurate a religious outbreak as the first step towards the overthrow of allen power. As already cabled, the outbreak was caused by the objections of the congregation of a Mohammedan mosque near the Daroval Bridge to the music of a native band which was at the head of a procession of Hindoos. The latter persisted in allowing the band to piay, the Mohammedans raised a war cry and a three-hours' aght followed, during which the Hindoos flocked to the scene of the disturbance and sacked the

As a result, it is added, the ringleader and seventeen others were arrested and charged with high treason. The police also captured eighteen other persons connected with the same plot who have been charged with conspiracy. The police, in addition, took possession of a secret press and a quantity of literature belonging to the conspirators.

LONDON, Sept. 15.-The Daily News learns on what it says is the best authority that Paderewski, the pianist, has revised his intention to revisit the United States the coming season and proposes to spend the winter in Europe. He does this on the advice of his physicians, who advise against a long and exhausting journey. Paderewski hopes to be able to go to the United States in October of next year.

Dutch Capture Pasingaban. AMSTERDAM, Sept. 14.-A telegram received from Batavia states that the Dutch forces, after hard fighting, which lasted all day, captured Pasingaban, where the Mataram rebels were concentrated. The rebels retreated to Mataram, which is a fortified place. The Dutch, however, are advancing upon Mataram and expect to capture the place within a week, though not without a hot engagement.

PERILOUS TRIP OF A STEAMER IN NORTHERN MINNESOTA.

Sixty Miles of the Voyage Made B tween Walls, of Fire-The Whole County Said to Be Aflame.

MINNEAPOLIS, Sept. 14.-Kirby Bar num, who owns the western border of th great Red Lake Indian reservation, in the northern part of this State, has just returned from a perilous trip down the Thief river, which skirts that reservation on the west. The trip was made in a small passenger steamer that plies between the Indian agency and Thief River falls, a distance of 120 miles. Fully half of this trip was made between walls of fire. Mr. Barnum says that the flames have jumped the Thief river and cut a swath through the whole country is aflame, but, owing to the fact that communication is slow, little has been heard about it further south. The steamer was forced to go three and four miles at a time, and then everybody would get out and stand in the water on the sand bars until the fire and heat abated somewhat. Several times the boat was afire, and it was only with the utmost difficulty that it was saved. If it had burned the whole party must have per-ished. The water in the river had been raised to such a temperature by the fire that its surface was covered with millions of fish. Bear, deer and other game were fleeing from the flames. Many small canoe parties of Indians were encountered making their way down stream as best they could. There has probably been loss of life among them. Mr. Barnum says that the fire originated in a blaze set by a man who had tried to get control of some hay land from the government. It was given to another man, and, out of spite, he hired two men to fire it. The flames soon spread to the forest, and have been burning ever The people in Thief River Falls and vicinity were so indignant over this act that they threatened to lynch the man if he could be found. He has disappeared with the two men he hired to do the deed.

Firebugs at a Soldiers' Home. WASHINGTON, Sept. 14.-r ire early this morning partly destroyed the oig barn the National Soldiers' Home north of this city, causing a loss of about \$10,000. The fire is believed to have been the work of incendiaries. Not .ong before midnight some hay stacks near the stables were discovered ablaze and burned to the ground. The inmates of the home had hardly become quiet before another alarm was sounded, and this time the barn in which are kept the horses and a part of the stores of the home was found on fire in several places. The veterans were thoroughly alarmed and patrolled the grounds for hours. It is thought that some discharged soldier or crazed inmate of the home is responsible for the fires. Governor Stanley, of the home, after consultation with General Schofield, offered a reward of \$500 for the arrest and conviction of the firebugs. Suspicion is said to point to two men who were receiving good-sized pensions and were discharged to make room for less fortunate

Great Fire in China. SHANGHAI, Sept. 14.-A disastrous fire, attended with considerable loss of life, reported to have occurred at Chung-King, on the evening of Aug. 25. The conflagration is said to have raged all night, and before midnight the whole of the southeastern portion of the city was in flames. About thirty persons are known to have perished during the fire, and it is probable that this number is far less than that which will eventually be shown to represent the actual loss of life. It is roughly estimated that the loss by the fire will amount to fully 15,000,000 taels. About two thousand buildings were destroyed, including part of the Taotai's Yamen (city hall) and three Chinese temples. No foreign houses were The Taotai's wife, who was in feeble health, succumbed. Chung-King is situated on the upper portion of the Yangtse-Kiang.

THE LEXOW COMMITTEE.

It May Haul All New York Police Captains Over the Coals. NEW YORK, Sept. 14 .- An afternoon paper says: "Without revealing any secrets of the Lexow committee, or of its council, or of any one, in fact, connected with the investigation of the police department, it can be said that every police captain in harness to-day, or when the committee meets again, will be hauled over the coals before the committee. There will be no exception to that unless the inquiry into charges made against the captains already billed to appear before the committee takes up so much time as to exclude some of the others from an opportunity to make an ex-planation, but it will be only a lack of time that will keep some of the captains off the stand."

The Vatican and Corrupt Tammany. NEW YORK, Sept. 14.-Father Ducey, of this city, in a signed article printed today, referring to the Lexow committee investigations in this city, says he has received letters from Rome that show the Vatican is deeply interested in the disclosures regarding Tammany, and fears its effect on the church, of which Tam-many Hall and its supporters are members. Father Ducey says: "I am delighted at the interest for a moral purification shown by the head of the church, and I trust that my non-Catholic brethren will be kind enough to stop impugning the fair name of our church and not hold it re-

sponsible for the corruption that exists." Parkhurst Scored by Fellows. EUGENE DEBS TALKS

SAYS HE DOESN'T TAKE MUCH STOCK IN LABOR LEADERS,

Believes the Workingman Should Do His Own Thinking-Lecture on the Great Strike.

HARRISBURG, Pa., Sept. 14.-One of the largest and most intelligent audiences that has ever gathered in the opera house assembled here to-night to hear Eugene V. Debs discourse for two hours on the cause of the great sympathetic strike. Debs said he was opposed to strikes, but that they are the only weapons which labor has to defend itself against the encroachments of capital. He claimed that the Pullman employes were unjustly treated by the company, and that he admired them for striking. If he had been an employe he would have struck, regardless of consequences. Debs contended that the sympathy strike was forced by the General Managers' Association offering to make the fight for the Pullman company. He had no more to do with ordering the strike than if he had not been in the country. It was ordered by the unanimous action of 350 delegates to the American Railway Union convention, after all subordinate lodges had been consulted. The strike was won five days after it was inaugurated, and then the injunction was issued against the leaders and they were enjoined from directing their forces. He advocated unification of all branches of labor, and claimed that class brotherhoods had never won successful strikes themselves. The Chicago strike was not defeated, because it had advanced the cause of labor fifty years. "I believe in law and order," he said, "and am not a disciple of the red flag of anarchy." Attorney-general Olney was a corporation lawyer, he claimed, and ought to be impeached for his recent decision on the interstate-commerce laws. Both political parties ought to be wiped out of existence. and he advocated the election of federal judges and United States Senators by the direct vote of the people. He said he may have lost the respect of a great many men, but he had kept his own. "I don't take much stock in what they call labor leaders," Debs concluded. "In the past workingmen have been following others and thinking by proxy. Now let them do their own thinking." Mr. Debs

was given an informal reception at the hotel at the close of the meeting. Many of the best people of the city called and extended sympathy. The company had individual contracts with its men to work at 55 cents a ton. The Columbus scale fixed the rate at 69 cents and the men were called out. During the past week the men have been breaking away, and to-day several mines are in operation, while the entire plant will be running by Monday. company employs about 5,000 men A vigorous effort was made to win this strike, as it was claimed that if it was lost the other operators would cut wages to meet the New York and Cleveland company's prices.

Against Three Days' Pay for One. CHICAGO, Sept. 14. - County Attorney Judd to-day submitted an opinion in re lation to the claim of the deputy sheriffs composing the American Justice Club for three days' pay for every twenty-four hours they worked as deputy sheriffs during the strike. "It is my opinion," says Attorney Judd, "that the so-called eight hour law is applicable only to such labor and services as are performed by one person for another in the commercial world, and that the exercise by a person of the functions of a public office, whether as officer or deputy, are not within the sense and meaning of the act. I, therefore recommend that the claim be not allowed.

Proposed Strike of Garment Workers BOSTON, Sept. 14 .- At a meeting of the district council of United Garment Workers last night delegates from every shop in the city reported in favor of a general strike. If such action is taken 4,500 men will be involved. Their most important grievance is that they are working under what they call the piece and task system, and this they claim is unfair. They demand that the contractors employ them by the week and that their weekly wages shall be not less than \$2 for a day of

A PUGILISTIC JUDGE.

He Knocks Down a Disguised United States Deputy Marshal.

SPRINGFIELD, Mo., Sept. 14. - United States Deputy Marshals Hyde and Colt, from Kansas City, have had some disagreeable experiences in attempting to capture the Dallas county judges who are wanted by Judge Phillips for contempt in refusing to levy a tax to pay fraudulent railroad bonds. Hyde went to Buffalo, disguised as a laborer, and tried to arrest one of the judges. He was knocked down and the judge escaped. Colt tried the disguise business by posing as a Methodist preacher, but had no better success than Hyde, and the county judges are still enjoying their freedom.

WERE BEASTLY DRUNK

CHARGES AGAINST THE STEAMER MIRANDA'S CREW REITERATED.

Prof. Wright Tells of the Doings of the Sailors When the Vessel Sunk -Dr. Cook's Statement.

OBERLIN, O., Sept. 14.-Prof. G. Frederick Wright, the eminent geologist, who returned home yesterday, made a statement to-day which will elicit much surprise among people interested in the success of the Cook expedition, of which he was a member. It will be remembered that the expedition was brought to a sudden termination by the sinking of the steamship Miranda. Professor Wright makes the statement that during the night of the storm nearly all of the crew of the illfated ship were beastly drunk. He also makes the assertion that in changing the crew from the Miranda to the Rigel, while the former boat was sinking, that one deck hand had to be hustled over the gangway Miranda week . previous to The extent of the damage done to her hull was underestimated at that time, and on this night, during a high sea, she sprang

a leak. During the three hours that the Rigel was attempting to lay to the Miranda's excited and mutinous crew broke into the forecastle, where the liquors of the vessel were stored, took the liquors and held high riot, and became so reckless that they even smuggled bottles of whisky under their clothes while in the terrible peril of crossing between the two ships. Professor Wright stated that in his opin-ion the officers of the boat were in nowise responsible for this strange condition of affairs, but that it was human nature for men of this class, in such a position, to act as they did. Also, that the Miranda would undoubtedly have gone down with the crew sober, if such had been the case.

Dr. Cook's Reply.

NEW YORK, Sept. 14.-Dr. Cook, who engineered the Miranda expedition to Greenland, was to-day shown a dispatch from Oberlin, O., saying that many of the crew of the steamer Miranda were drunk at the time she was abandoned, and that the reef on which the vessel struck was plainly marked on the chart. He said: "While it is quite true that some of the crew of the Miranda were intoxicated at times, nobody was under the influence of liquor at the time she struck the rock. All the intoxicating loquors on board the Miranda were locked up and in charge of the steward. I am confident that he never gave any member of the crew anything to drink and did not abuse his trust. On the second night out on our return home, when about three hundred miles off the coast of Greenland, the Miranda blew three blasts of her whistles, which was the signal of distress previously agreed upon. I was then decided to abandon the Miranda, but the crew were not transferred until three hours afterwards. Before the transfer had been effected the crew broke into the lockers containing the spirits and, besides drinking a liberal quantity, stuffed their pockets with bottles of liquor. When they reached the schooner some of them were unquestionably in a very intoxicated condition. But the point I wish to make is that nobody on the Miranda was intoxicated at the time she struck the reef. "In regard to the statement of Prof Wright that the reef on which the Miranda struck was plainly marked on the chart, wish to say that he is somewhat mistaken. The only charts of the coast that are obtainable are the United States hydrographical and the British charts. In neither of these charts is the position of the reef marked. The Danish charts, however, which are really the property of the Danish Trading Company, give the position of the reef. Unfortunately, we did not have these Danish charts or the accident

would not have happened. FASTEST BOAT AFLOAT

REMARKABLE PERFORMANCE OF THE CUNARD STEAMER LUCANIA.

Average Speed of 21.84 Knots an Hour for 2,810 Nautical Miles-A Veritable "Queen of the Sea."

LONDON, Sept. 14.-The remarkable performance of the Cunard-line steamer Lucania, which arrived at Queenstown from New York at 3:47 this morning, has created considerable excitement in shipping circles, and is a matter of public comment. The Lucania's days' runs were 447, 512, 494, 514, 506 and 337, making a total of 2,810 knots, her average speed being 21.84 knots. A singular feature of the trip is the fact that the Lucania's records for both the eastward and westward voyages are identically the same, namely, five days, eight hours and thirty-six minutes, but on the present eastward trip she covered a distance of twenty-three miles more than she did on her record-breaking trip last month. The Lucania, by her present performance, firmly establishes her position as "Queen of the Sea," having crossed the ocean in both directions in less time than any other steamer. She holds the highest average hourly speed record, 21.89 knots, made in June last, and her 565 knots covered in one day in October, 1893, is still the record for the longest day's run. The probabilities are that there will be no more record breaking this year, as September gales are about due.

Steamer's Shaft Broken. CHICAGO, Sept. 14.-The sight of signals of distress flying from the steamer Pur-

itan caused considerable excitement along the lake front to-day. The steamer was bound for St. Joseph and had on board a load of passengers. She was about four miles out when the signals for aid were made. The tug Alpha put out and found that the steamer had broken her shaft. The tug towed the disabled boat into port. It will take a week or more to make the repairs. It was fortunate for the passengers and crew that the shaft broke just when it did, else the steamer might have drifted around the lake many hours before being sighted.

BRETZ'S DISTRICT

COL. HARDY FINDS A PROMISING DEMOCRATIC SPLIT AT JASPER.

Nathan Meyer, Wealthy Hebrew Manufacturer at Wabash, Done with Democracy-State Politics.

Special to the Indianapolis Journal. JASPER, Ind., Sept. 14.-Dubois county, the stronghold of Democracy in the Second congressional district, is this week being besieged by Col. A. M. Hardy, the Republican candidate for Congress. Colonel Hardy has made eight speeches in the county this week. Last night he addressed the largest and most enthusiastic Republican meeting ever held in Jasper. The court room was crowded, over two-thirds of the audience being wage earners employed in the mills and factories at this place, who listened for an hour and a half to one of the ablest speeches on the tariff question ever delivered here. The applause after the many strong points made by the speaker brought dismay to the rockribbed members of the Democracy present. Jasper is the home of Congressman Bretz, the Democratic candidate for re-election, and the splendid reception given the Republican candidate in this city and throughout the county has filled the lead-

ers of Democracy with alarm. They have been brought to realize that it is only a question of time before Dubois county will cease to be the Gibraltar of Democracy in the Second district it has been. A break has already been made in the German Democratic vote, and it is admitted Col. Hardy will reduce the Democratic majority in this county at least five hundrad. Isadore Schumacker, of Jasper, one of the leading citizens of the county, and for eight years the Democratic auditor, has abandoned the old party and is this year the Republican candidate for auditor, and the chances are good for his election. The Republicans are confident of electing, one of their candidates for joint Representative in this district, composed of Dubois, Martin, Lawrence and Orange counties. Colonel Hardy closed his campaign in Dubois county for the present at Huntingburg 'o-night. The Second district is in splending shape, and the Republicans have ers, the soldiers and the wool growers have had enough of Democracy, and will this year retire to the shades of private life the congressional nonenity, John L. Bretz, who has been a pitiful failure as a Congressman, and who has voted against the nterests of the people of his district at every opportunity.

COMES OUT REPUBLICAN. Wealthy Wabash Hebrew Publicly

Renounces Democracy. Special to the Indianapolis Journal. WABASH, Ind., Sept. 14.-Nathan Meyer. the wealthy proprietor of the Pioneer hat works, the only hat manufactory west of the Allegheny mountains, has renounced Democracy and declares that he will henceforward act with the Republican party. Mr. Meyer cannot stomach the Democratic financial and tariff principles, which appeal with especial force and significance to him at this time. Yesterday, in his speech before the Democratic county convention, Indian Commissioner Kidd, who was once a Republican and who is now drawing \$15 a day as a member of the Dawes Indian Commission, mentioned Mr. Meyer's desertion of the Democratic party, and said he was impelled to take the step from purely selfish motives, being a protected manufacturer. Heretofore the Hebrew residents of Wabash, all well-to-do and first-class citi-zens, have voted the Democratic ticket, but this year many of them will join the Republican protectionist army, and their

dently predicted by Republicans who are well informed that the county will give 1,800 and perhaps 2,000 majority for the Republican ticket. Landis at South Bend. Special to the Indianapolis Journal. SOUTH BEND, Ind., Sept. 14.-Hon. Charles B. Landis, of Delphi, opened the Republican campaign here this evening with a rousing address in Good's Opera House. The meeting was called to order about 7:45 o'clock, and for over an hour Mr. Landis spoke to a large crowd. He paid honest but not complimentary respects to the Democratic tariff measure, and his remarks were received with loud applause. He discussed the bill in a logical way, and all his words were vigorous in denunciation of the policies of the Democratic party. Especial attention was given to pension matters and to the policy of Mr. Cleveland on the Hawailan matter. Mr. Landis was introduced by Aaron Jones, of South Bend, and frequent applause interrupted the

Encouraging for Watson. Special to the Indianapolis Journal.

RISING SUN, Ind., Sept. 14.-Hon, James E. Watson, Republican candidate for Congress from this district, spoke here last night to a large meeting. He won the respect and attention of many Democrats who heard him and many of them will give him their support in November. The outlook is encouraging.

Utility of the German Language.

To the Editor of the Indianapolis Journal:

The discrimination against the use of the

German language in the ritual of the order of Knights of Pythias has stirred up some feeling and caused a great deal of discussion and the issuance of proclamations. The rule of prohibiting such use is certainly a serious mistake, which tends to annihilate the influence of the German members, and is equivalent to their exclusion from the order. Every German, on becoming a citizen of the United States should try his best to master the English language, but it is generally difficult for him to attain such perfection as would enable him to use it in public discussion. The order of Knights of Pythias is probably one of progress, otherwise it would not be worthy of existence. If the German element should be excluded, it certainly would mean the elimination of a progressive element. The American nation is a mixture of many nations, and that is the main foundation of its excel-lence. It consists principally of descendants of Germans, although they have lost their language. The spirit of German diligence and perseverance has made this country great and free: without this spirit, the country would perish in duliness and idleness. Who has cultivated our farms, that were exhausted and abandoned by our so-called native Americans? Who are the majority of our gardeners; florists, butchers, mechanics, faithful clerks, bookkeepers and foremen in our factories? We need not fear for the purity of the English language. if there is such quality in a language that is really low German or Dutch, mixed with French, Latin and Greek. Every language is subject to progress. If every American citizen could speak a second language, besides the English, it would be a great accomplishment, worthy of every citizen of this great Republic with its system of free schools. It is a great mistake to consider the study of German in our public schools as being simply tolerated in order to humor the German population. Let every American learn it; let every American have the benefit of it. The school examinations of every city of the United States have demonstrated that those pupils who studied German were the most proficient in all other branches of study. CLEMENS VONNEGUT. booth, or stall, as the English call it, at a bazaar, introduce a "curiosity" table. This you will fill with all sorts of knickknacks of by-gone days. Old snuffer trays, brass handles, candlesticks, bits of odd china old engravings, quaint books, antique pieces of tableware, and old-fashioned ornaments might be gathered from different places and plainly labeled. Persons in search of antiquities would readily buy such trifles when the usual fancy work and home-made gew gaws would scarcely receive a second glance.

MISS WELLS PRAISED. Bishop Walters on the Lynching of Ne-

groes in the South. ST. LOUIS. Sept. 14.-At the African Methodist Episcopal Zion Conference, today, the reports of lay delegates were made and a number of addresses on several sub-

jects delivered. This evening at least twelve hundred persons were present to hear the discussion of Miss Ida B. Wells's anti-lynching work. Bishop Walters, the first speaker, commenced his remarks with a denunciation of the recent lynching near Memphis. He spoke of the English investigating committee, and said: "Ere they arrived upon our shores this crime, which beggars description, was heralded to the world to silence the guns of our enemies. It gave the lie to the slanderous reports which had been sent across the waters. We do not condone crimes committed by any member of the race. Indeed, it is our duty as ministers to lift up our voices against sin of every kind. But while we do our ducy in this respect, we want our white brothers to see that when we are accused of a crime we are given a fair trial. Outrages are more aggravating wa ... we re-member that white men can commit crimes against colored women and very little is

said about it. Is this fair?" Then the Bishop, his voice trembling with emotion, denounced lynching in the plainest and most fearless manner. He complimented Miss Wells, and said that God Himself had raised her up to do the work which she is doing. He closed by urging his people to form anti-lynching leagues and to do all in their power to abolish lynching. His speech was greeted with applause, and after a few more speakers had expressed their feelings, the conference and entire congregation voted to sustain the Bishop's views.

DREADFUL PSORIASIS

Covering Entire Body with White Scales. Suffering Fearful. Cured by Cuticura. My disease (psoriasis) first broke out on my

left cheek, spreading across my nose, and almost covering my face. It ran into my eyes, and the physician was afraid I would lose my eyesight altogether. It spread all over my head, and my hair all fell out, until I was entirely bald-headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head, and shoulders being the worst. The white scabs fell constantly from my head, shoulders, and arms; the skin would thicken

and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced neurable. I heard of the CUTICURA REMEDIES. and after using two bottles Curicura Resor-vent, I could see a change; and after I had taken four bottles, I was almost cured; and when I had used six bottles of CUTICURA RE-SOLVENT, one box of CUTICURA, and one cake of CUTICURA SOAP, I was cured of the dreadful disease from which I had suffered for five years. I cannot express with a pen what I suffered before using the REMEDIES. They saved my life, and I feel it my duty to recommend them My hair is restored as good as ever, and so is
